

Vice President's Fall 2024 Report
October 2024

The Program, Welfare and Oral History Committees have been very productive since last spring.

On April 12th a delightful lunch was organized by the Development and Engagement Committee with several engaging Promise Scholars at the Faculty Club. Efforts to establish a mentorship program between Emeriti Faculty and Promise Scholars have temporarily stalled but will hopefully be revived in the coming months.

Over the summer President Zimmerman and I met with three new Board members, who promise to be very active participants in Emeriti Association activities. Sandy Thompson agreed to co-chair the Oral History Committee and has expeditiously moved the committee's work forward with four monthly meetings and designated goal of conducting a first test interview in November. Brenda Major has enthusiastically joined the Program Committee. Carol Stewart is interested in engaging on health issues.

Respectfully submitted,
Cynthia Brown
