

**UCSB Emeriti Association
Board Meeting October 24, 2024
Web Advisory Report**

In the absence of a Web Advisory Committee, we are using a web-building technique that has worked for other organizations: member sourcing. We have consulted Emeriti Association members through email about the design and navigation of the site. The overwhelming majority of respondents preferred the design and navigation of the UCSD emeriti association website.

Our website, emeritiassociation.ucsb.edu, is under development by a UCSB web designer, building the site with Drupal, a content management framework.

EA Board member Tom Gerig and Associate Dean for Undergraduate Education Madeleine Sorapure have agreed to review a working version of the site. Dr. Sorapure is experienced with Drupal software.

We hope to make a beta version of the site available for general review before the end of the year.
